

Community & Youth Collaborative Institute

School Experience Survey: Pricing Structure 2018 Update

The Community & Youth Collaborative Institute School Experience Surveys (CAYCI-SES) were developed over many years and with input from district, school, and community stakeholders. Schools that have used them have found that the items/constructs resonate well with expanded school improvement efforts. There are four versions – elementary student, middle/high school student, teacher/staff, and parent/caregiver. For a minimal cost, CAYCI can provide schools with additional supports in collecting (through both paper & electronic versions) and understanding your data. Costs associated with using the CAYCI SES vary based on how many schools participate, how many survey versions are used, what data collection methods are used.

The base fee charged varies per school and depends on how many versions of the survey are being used. See table one. A 10% discount is available for projects involving more than three schools. This fee includes, support with online data collection and generation of individual school reports (one report per version of survey used). These base fees are for schools utilizing the online survey platform for all data collection, if hard copies will also be used please see table two.

*Table One: Base Fee per School**

	Base Fee per School <i>(Includes Online Data Collection & Standard Report)</i>
1 Survey Versions	\$350
2 Survey Versions	\$450
3 Survey Versions	\$500
4 Survey Versions	\$550

**Survey Versions = Elementary, Middle/High, Teacher/Staff, and Parent/Caregiver*

If surveys are collected in paper-pencil format, an additional cost covers the provision of survey hard copies and time allotted for manual data entry. See table two.

Table Two: Hard Copy Fee

	Hard Copy Fee <i>(Based on total number of surveys across versions)</i>
0-250	\$250
250-500	\$500
500-1000	\$700
1000+	\$900

Further customization of services may be available for an additional cost, see table three.

*Table Three: Additional Service Fee per Version per School**

	Per School Fee <i>(Based on total number versions across schools)</i>
3-5 District Questions	\$50
Open-Ended Question	\$75
Additional Language	\$50
Building Trend Report	\$250
Full District Report	\$500
District Trend Report	\$500
Additional Analytic Support	TBD

**Survey Versions = Elementary, Middle/High, Teacher/Staff, and Parent/Caregiver*

School Experience Survey: Pricing Structure 2018 Update

Several examples of how the CAYCI-SES may be used across a school/school district are provided below. Please note each school's use of the CAYCI-SES survey and collection process may vary based on the population served.

Example One:

In 2016-17, one western urban school district chose to administer only the student survey version to each of 13 schools. The school utilized a combination of online and hard copy data collection methods. The following quote outlines to costs for base services, hard copy versions, and additional analyses.

QTY	DESCRIPTION	UNIT PRICE	LINE TOTAL
8	Elementary Schools – Base Fee for 1 On-Line Survey Versions*	350	\$2,800
2	Junior High Schools – Base Fee for 1 On-Line Survey Versions*	350	\$700
3	High Schools – Base Fee for 1 On-Line Survey Versions*	350	\$1,050
8	Paper Survey Fee (data entry for @ 250 Elementary Student Surveys)	250	\$2,000
1	Extra report (district level report summarizing all data)	500	\$500
1	10% discount for project involving >3 schools		-\$705
TOTAL			\$6,345

Example Two:

In 2017-18, one northeastern suburban school district chose to administer three survey versions to each of two schools. The school utilized a combination of online and hard copy data collection methods. The following quote outlines to costs for base services and hard copy versions.

QTY	DESCRIPTION	UNIT PRICE	LINE TOTAL
1	Elementary School – Base Fee for 3 Survey Versions*	\$500	\$500
1	Middle School—Base Fee for 3 Survey Versions*	\$500	\$500
1	Paper Survey Fee (0-250 copies)	\$250	\$250
TOTAL			\$1,250

Example Three:

In 2018-19, one northeastern school district chose to administer three survey versions across five schools utilizing only online survey collection. The school also added an additional district report, which would provide a synopsis of all survey versions across all school buildings. The following quote outlines to costs for base services and an additional report.

QTY	DESCRIPTION	UNIT PRICE	LINE TOTAL
3	Elementary Schools – Base Fee for 3 Survey Versions*	500	1500
2	Middle/High Schools – Base Fee for 3 Survey Versions*	500	1000
1	District Report	500	500
1	10% discount for project involving >3 schools (if applicable)		-300
TOTAL			\$2,700
